ithubseva Payroll

Attendance + Payroll in one simple system

Product brochure (sample)

Attendance that flows straight into payroll - no spreadsheets, no month-end chaos.

What you get

- Face kiosk attendance: any tablet becomes a contactless punch point
- Staff with payroll, and students with attendance only
- Shifts, breaks, week-offs and holidays per person
- Late marks, overtime, leave and loans handled automatically
- PF, ESIC and professional tax, with one-click payslips
- WhatsApp message to the family on punch in, punch out and absence

How it works

1. Enroll a person step by step: details, work setup, salary, face.
2. Open the kiosk link on a tablet near the entrance.
3. Everyone punches with their face. You see it live.
4. Run payroll at month end and release payslips.

ithubseva Payroll

Attendance + Payroll in one simple system

Plans and support (sample)

Simple plans

Trial - 25 people, free for 30 days

Basic - up to 50 people

Pro - up to 250 people

Enterprise - custom, unlimited

Why customers like it

- Buddy punching stops: the kiosk checks the real face
- Owners get a live present / absent view from their phone
- Employees and students see their own attendance calendar
